

“Hair” the musical concept lighting/set design

By Eve Shalaev

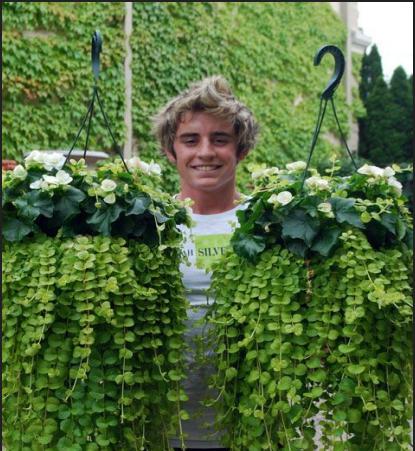

Main elements

- **Big peace logo** in the background to bring out the hippies message.
- **Lots of nature, plants, and trees** on the set. Hippies had meetups where they were out in nature just vibing together.
- **A bus**. Hippies loved busses in their time. They were cheap, parts were easily accessible and replaceable. And the best part is that it fit a lot of people and you could live in them. The bus would also have **a deck with stars** to make it into another level of the set.
- **An arch** made of wood. An arch symbolizes a connection between people, and bringing people together, like a bridge. That's what the hippies wanted. To stop war and bring people together in peace and live happily.
- Make the stage like a **live music venue**. With lots of colorful light and with loudspeakers, to really emphasize the rock concert idea like the writers wanted it.

Big peace logo

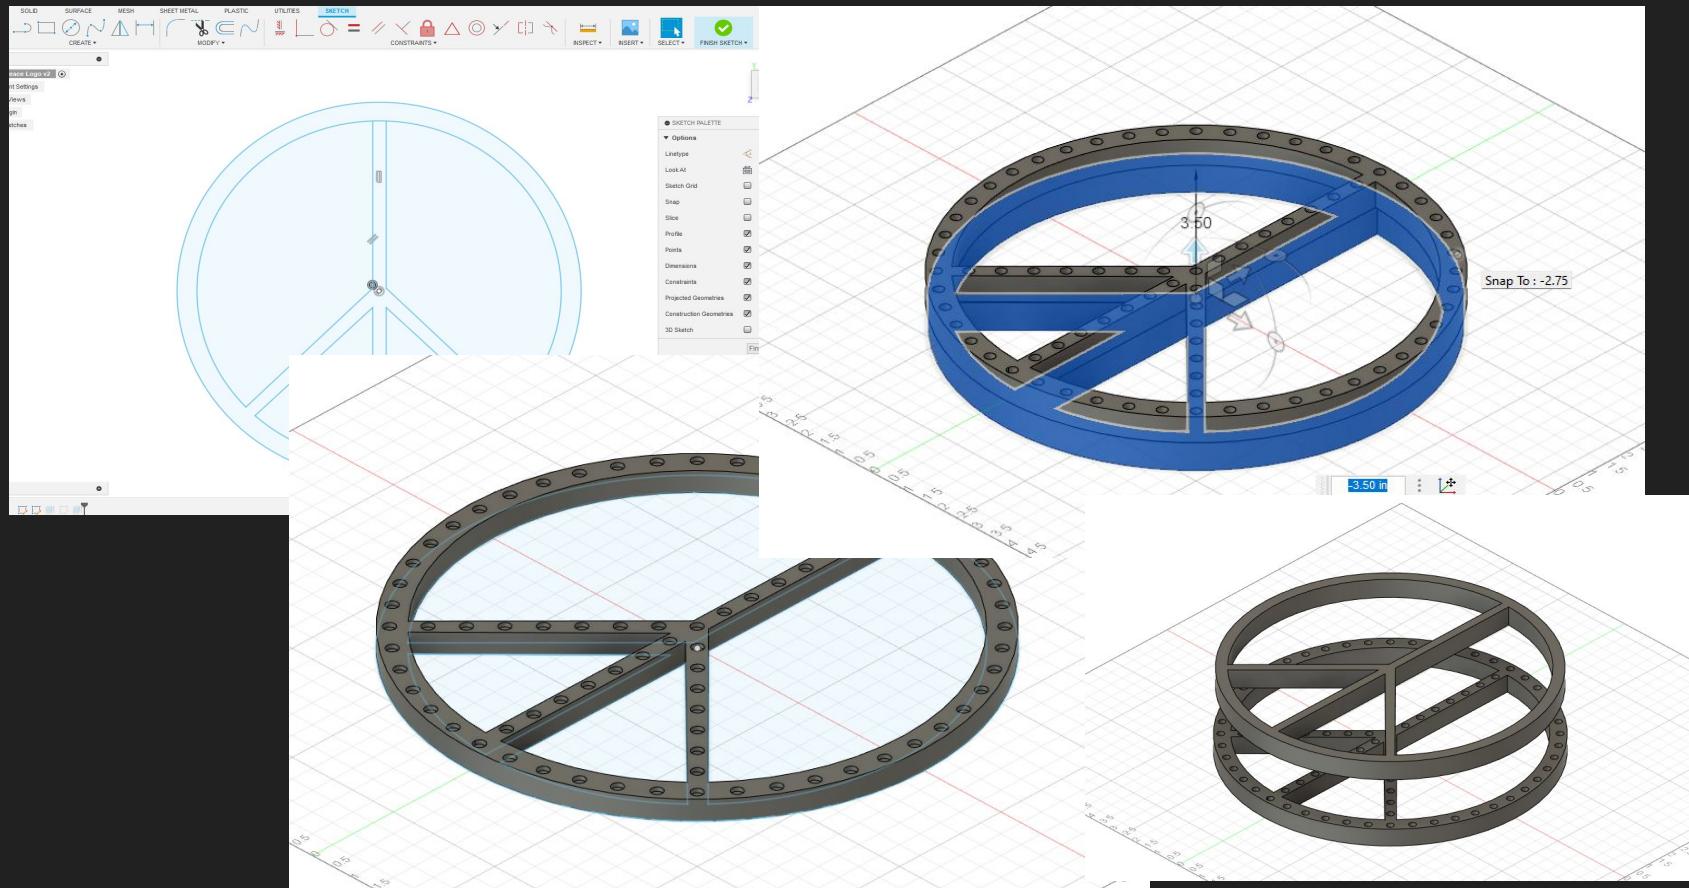

Peace logo - mood board

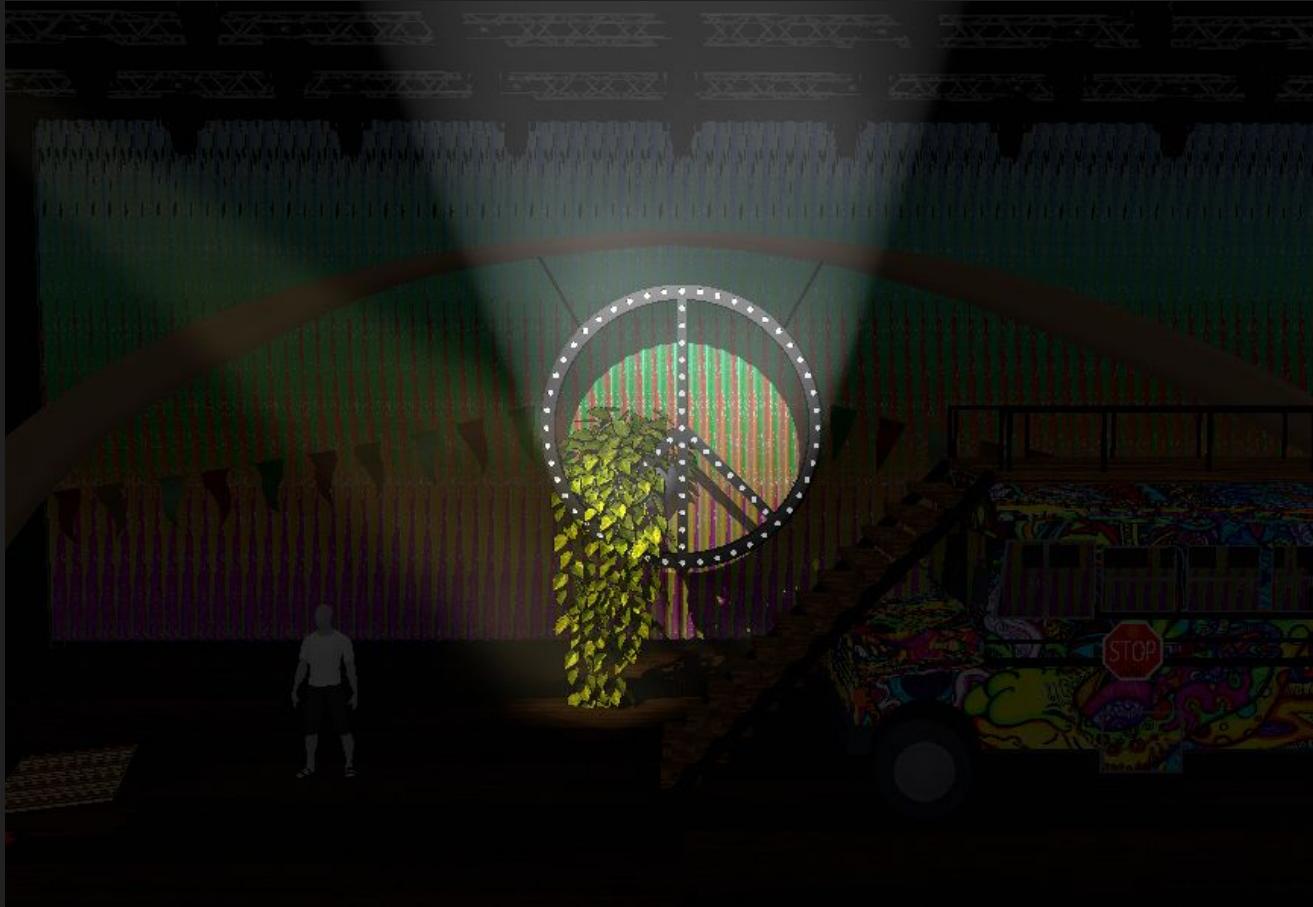

Peace logo lights - mood board

Peace logo - design process

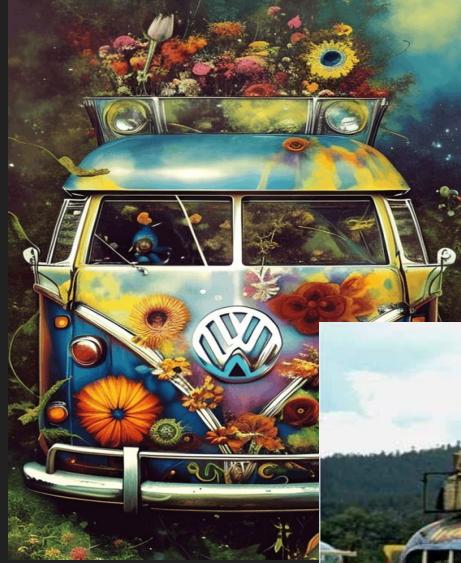

Peace logo - final result

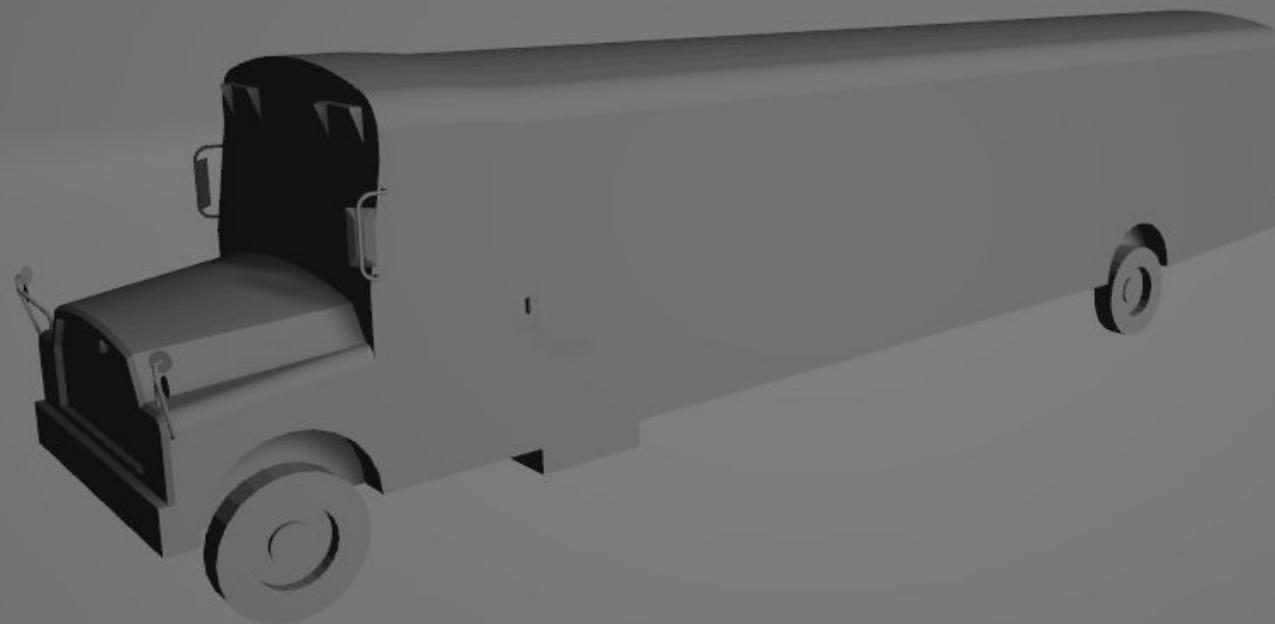

Bus

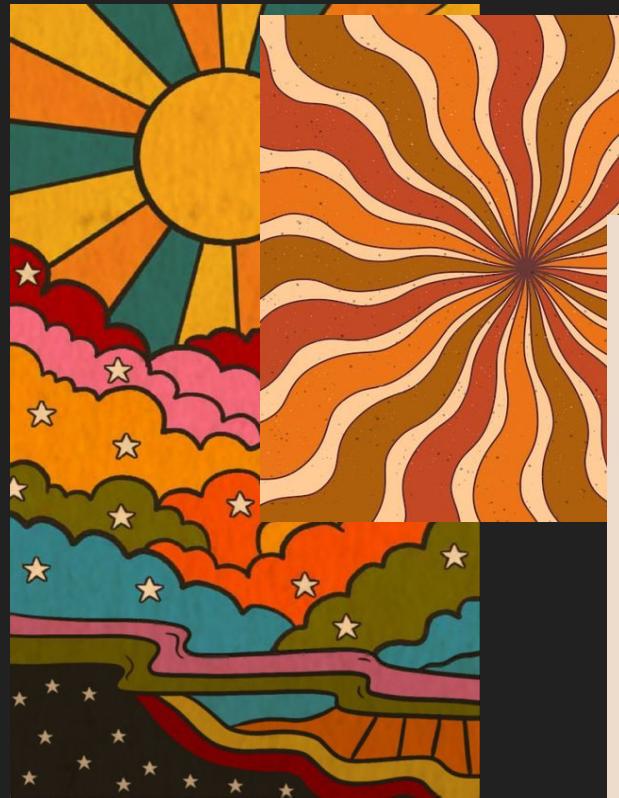

Bus - mood board

Bus - initial found model

Bus design - mood board

Bus - found and applied decal

My added detail

A cool detail I did draw in myself on the texture is a spray painted STOP the war on the stop sign on the school bus

Bus - final result

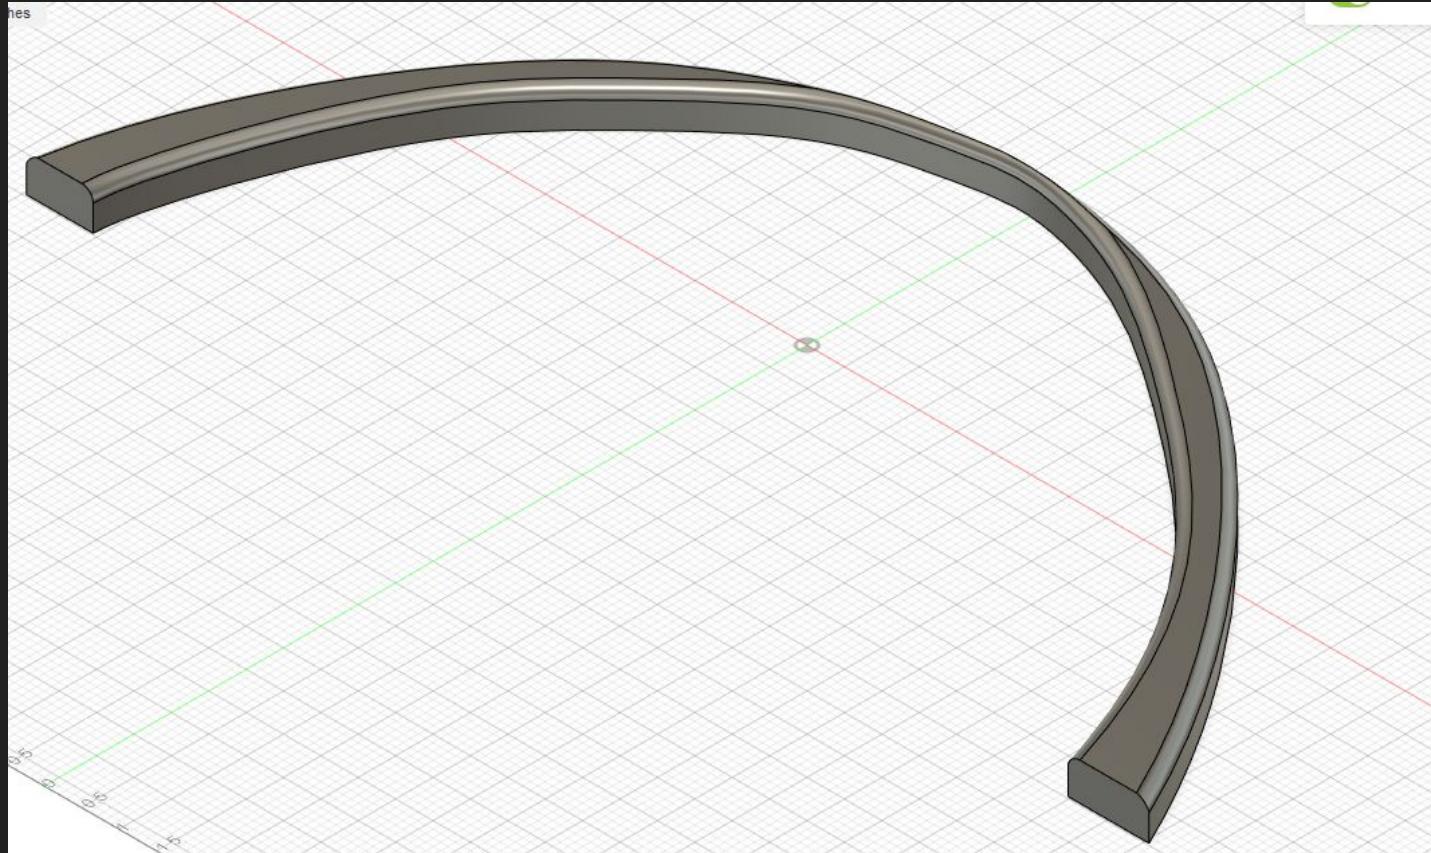

Arch

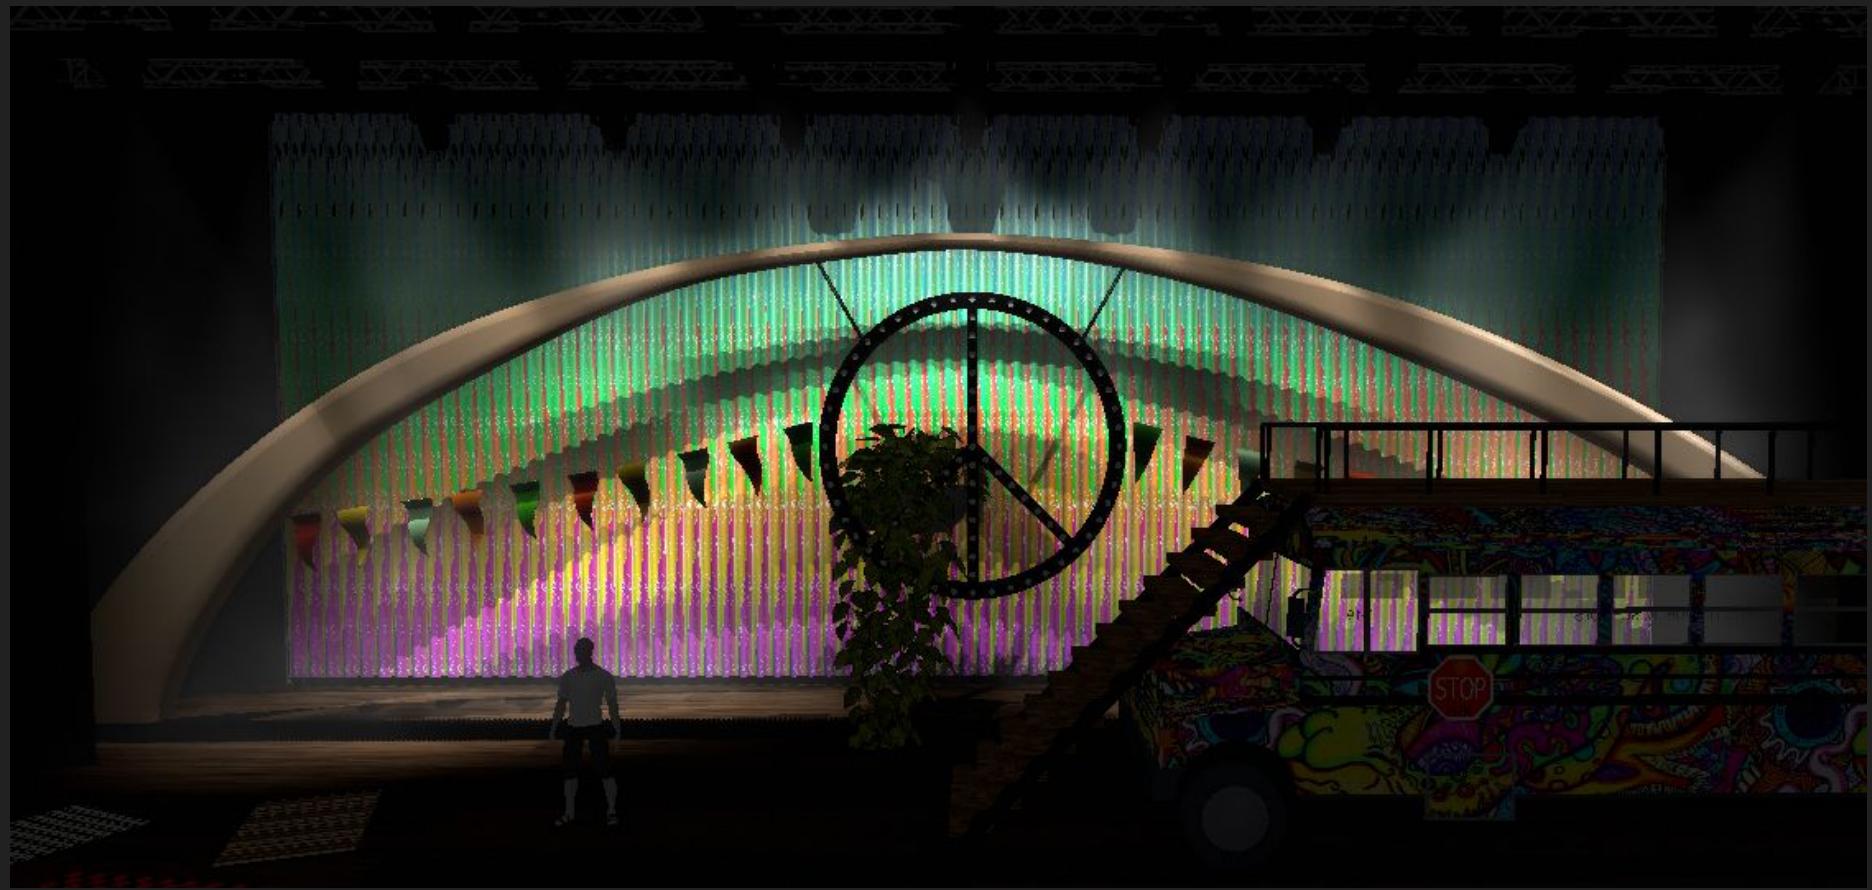

Arch - mood board

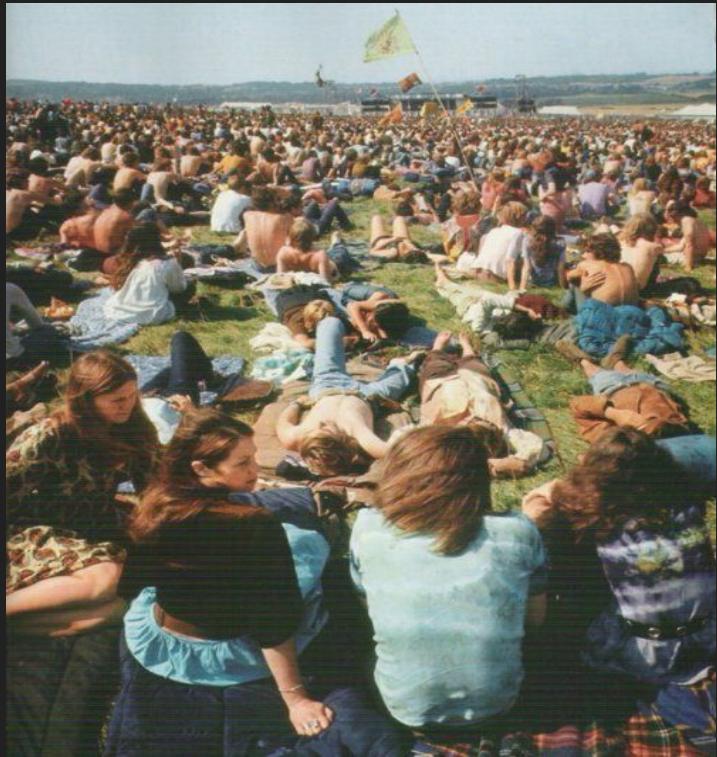

Arch - my initial model

Arch - Final result

Added details - mood board

My sketch

Final Result - scenic

LIGHTING DESIGN

I designed 3 of the songs from the musical, here's the mood boards for both of them.

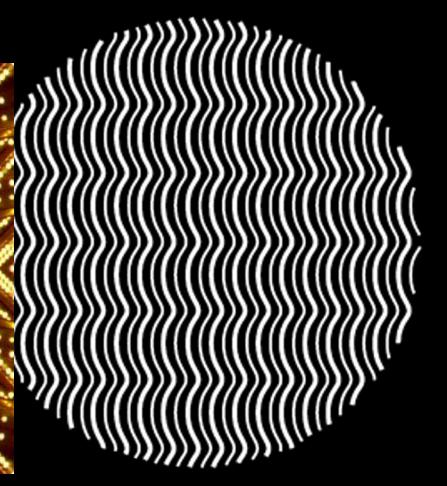

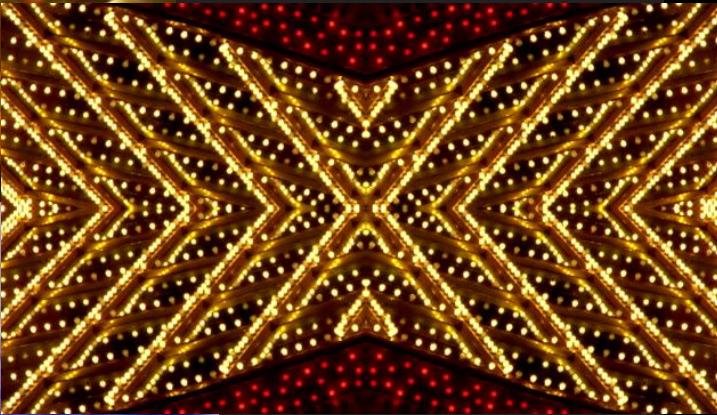

Aquarius
